

Cao Thanh Trường

Software Developer Intern

☎ 0375 914 910 ✉ caot43069@gmail.com 📍 Thu Duc, Ho Chi Minh city 📅 DoB: 28/06/2004

PROFILE

Aspiring full-stack developer with hands-on experience in web application development using ReactJS, NodeJS, and Laravel. Skilled in both frontend design (Figma, responsive UI) and backend logic (RESTful APIs, database schema). Passionate about building scalable, user-centric digital products.

OBJECTIVE

Short-term: Strengthen technical and teamwork skills in real-world projects.

Long-term: Grow into a full-stack developer and take on leadership responsibilities in product development.

EDUCATION

TDC - Faculty of Information Technology

9/2022 - 7/2025

Subject: Information Technology (**Website Development**)

Studied comprehensive website development, covering front-end technologies (HTML, CSS, JavaScript) and back-end languages (PHP, C#). Gained practical skills in responsive design, user experience (UX), and search engine optimization (SEO).

SKILLS

Programming Languages C#, PHP, Java, JavaScript

Frameworks & Tools ReactJS, NodeJS, Laravel, RESTful API, WordPress, Power Apps

Others Figma, MySQL, phpMyAdmin, SRS, MS Office

WORK EXPERIENCE

Nam Kien Van Education Center

6/2025 - Present

Nam Kien Van School Website

Role: Full-Stack Developer | **Tech:** ReactJS, NodeJS, ExpressJS, Figma, Vinahost

- Collaborated directly with clients to gather requirements and provide iterative feedback.
- Designed intuitive UI in Figma and developed both front-end and back-end.
- Created internal SRS documentation and managed hosting/domain via Vinahost.
- Key features: teacher list management, class scheduling, and course management.

ECOS Services Company Limited

11/2024 - 1/2025

ReactJS Project Internship (Social Media Website)

Role: Full-Stack Developer Intern | **Tech:** ReactJS, NodeJS, ExpressJS, RESTful API, Figma, Jest

- Conducted business analysis and drafted SRS based on project requirements.
- Designed user-friendly UI in Figma with clear visual hierarchy.
- Built responsive front-end (ReactJS) and RESTful back-end (NodeJS + ExpressJS).
- Performed unit testing (Jest) and integrated front-end/back-end for smooth performance.

BHK TECH JSC – Bach Hung Khang Technology Joint Stock Company

06/2024 - 09/2024

Power App Intern

Role: Developer | **Tools:** Figma, Power Apps, ERD

- **Shift Management App:** Designed and implemented a system to manage employee shifts with features for tracking, rescheduling, and admin controls.
- **Payment Advance App:** Built a salary advance request system with custom approval flows, from submission to reporting, based on organizational hierarchy.
- Drafted SRS, designed UI with Figma, and created ERDs for both systems.

PROJECTS

Game-Selling Website System 3/2024 - 6/2024

Role: Leader

Tech: PHP, Laravel, Composer, HTML5, CSS3, Axios, phpMyAdmin

Description:

Developed a scalable game marketplace with role-based access (User/Admin) and client-server architecture. Core features include:

- **Users:** Browse & purchase games, register owned games for resale, gift games to friends, and send co-op invitations with real-time notifications.
- **Admins:** Manage users & roles, moderate content, and view platform analytics (sales, engagement, growth).

Music Website 9/2024 - 11/2024

Role: Leader

Tech: ReactJS, NodeJS, ExpressJS, RESTful API, Bootstrap 5, phpMyAdmin

Description:

Built a full-featured music streaming platform with multi-role access (Users, Artists, Admins). Key features include:

- **Users:** Stream music by genre, subscribe to premium plans (MoMo, ZaloPay), and receive AI-based support via Witchatbot.
- **Artists:** Upload music, manage profiles, and curate content.
- **Admins:** Dashboard for managing users, subscriptions, music, and support tickets.
- **Support:** Integrated Witchatbot for real-time assistance and a support ticket system.
